

## SWING ARM FOR WIRE FEEDER STAND EQU22

**New ENGMAR trolley especially designed for torches connected to a separate wire feeder.**

The trolley allows the wire feeder to move on different welding areas keeping the ergonomics and the handling of the torch.

### PRODUCT ADVANTAGES

- + Reduction of the torch weight for an easier handling during the welding process.
- + Ideal positioning of the torch = time saving / productivity.
- + Freedom of movement that reduces gripping efforts, friction and cuts.
- + Preservation of torch hoses = maintenance saving.
- + Possibility to pass over workstations.
- + More space on the floor that contributes to security at workstation
- + Better wire unwinding
